What is the Network for EdWork?

TAF's [Network for EdWork](#) builds collaborative partnerships with districts, schools, higher education institutions, nonprofits, and government agencies to address recruitment gaps, enhance retention, and develop competencies within organizations. The goal is to foster the promotion of BIPOC educators and leaders, to make those groups more representative of their student populations. We believe that supporting and connecting BIPOC educators and leaders is essential to creating education spaces where students of color - and all students - thrive.

NETWORK FOR EDWORK OVERVIEW

TAF's [Network for EdWork](#) builds collaborative partnerships with districts, schools, higher education institutions, nonprofits, and government agencies to address recruitment gaps, enhance retention, and develop competencies within organizations. The goal is to foster the promotion of BIPOC educators and leaders, to make those groups more representative of their student populations. We believe that supporting and connecting BIPOC educators and leaders is essential to creating education spaces where students of color - and all students - thrive.
