We're excited to share that Network for EdWork's Annual Convening will take place on **February 27, 2027, at Highline College in Des Moines, Washington**.

This Year's Theme: Humanizing Education

The Call for Presenters is now **OPEN**! We invite educators who identify as BIPOC, as well as all education leaders, to submit proposals for:

- Talks
- Panels

- Workshops
- Activities

General Convening Email

[Banner]

We're excited to share that Network for EdWork's Annual Convening will take place on **February 27, 2027, at Highline College in Des Moines, Washington**.

We invite educators who identify as BIPOC, along with all education leaders, to join us.

What happens when we bring human experience back into ways of learning and being? At this year's Convening, we're creating space to honor who students and teachers are. A space that recognizes that liberatory, humanizing practices are essential to our communities and at the heart of educational justice.

The Convening creates space to build a different culture of learning and being—one that breaks down isolation by prioritizing collective well-being, joy, and healing as powerful acts of resistance.

Join us as we celebrate the ways BIPOC educators practice of love, courage, and liberation. Through inspiring keynotes, hands-on workshops, and meaningful community gatherings, we'll examine humanizing our classrooms, our institutions, and ourselves.

Ready to register? Visit our website.

We look forward to building community with you.

Network for EdWork's Annual **Convening** is happening February 27, 2027, at Highline College in Des Moines, Washington. The Call for Presenters is now **OPEN** until November 15th.

The Convening is open to educators who identify as BIPOC as well as all leaders in education to experience what liberatory education looks like. The 2027 Convening gathers educators to share liberatory practices that honor the identities of students and teachers. If you have humanizing lessons from the classroom, we want to hear them. If you know about humanizing practices for teachers, we want to see them. Bring what works and help others carry it back to their schools and communities.

If you have a panel, talk, workshop, or interactive activity that can help bring this vision to life, submit your proposal to be considered for this year's Convening!

What is the Network for EdWork?

TAF's Network for EdWork builds partnerships with districts, schools, and higher education institutions to address recruitment gaps, enhance retention, and develop organizational competencies to support

BIPOC teachers and professionals. We hope by providing support in this way, groups more representative of their student populations will continue to grow. We believe that supporting and connecting BIPOC educators and leaders is essential to creating education spaces where students and true diversity thrive.

NETWORK FOR EDWORK OVERVIEW

TAF's Network for EdWork builds partnerships with districts, schools, and higher education institutions to address recruitment gaps, enhance retention, and develop organizational competencies to support BIPOC teachers and professionals.
